

WINTER WORKBOOK 2023-24  
**SKI HELMETS & SKI GOGGLES**

## Premium quality helmets

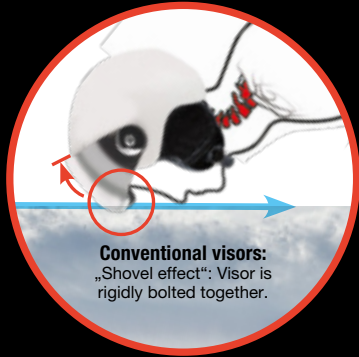

*CASCO products are designed, engineered, and made in our own factory in Europe so that we can guarantee exceptional quality, fair treatment of our employees, and sustainable manufacturing practices.*

*We contribute to environmental sustainability with our own vegetable oil-fueled cogeneration system. This initiative allows us to play an active role in reducing our carbon footprint.*

*The materials we use for our helmets are European-sourced and therefore in accordance with the European safety standards and the EU REACH legislation. CASCO products are high quality and built for longevity.*

# SAFETY VISOR

A class of its own: CASCO visors are not only safety visors of excellent quality, but also elastically mounted and not rigidly attached. This prevents the shovel effect and thus injury of the upper cervical spine.

The **CASCO technology** used in our safety visors was developed by us in order to craft a product that surpasses the high standards of **superior protection**.

**Perfect fit and comfort.**

The interior padding creates a seal across the wearer's face allowing for just the right amount of inside airflow.

**PREMIUM HELMET SP-6:  
THE MUST-HAVE OF SPORTY CHIC HELMETS**

**STRUCTURE:**

> Unique and patented design of the 3-part mold for:

- An ergonomic helmet shape that is close to the head
- Shock absorption and optimal protection

**ULTRA PREMIUM FINISH:**

> Seamless microfiber lining covering the entire inner shell:

- Removable for quick washing & drying

> Seamless padded microfiber chin strap:  
Incomparable comfort

> Ergonomic ear pads: seamless and perforated through rivets:

- Maximum comfort and optimized hearing

**VISOR:**

> Unique patented system of integrating the visor into the helmet:

- Perfect face coverage

> Elastically mounted and not rigidly screwed:  
This prevents the shovel effect in case of a fall and thus, injury of the upper cervical spine

> Thermoformed triple density foam:  
Excellent fitting comfort

> Anti-scratch & anti-fog visor treatment

> Vautron+ Automatic: fast adapting Photochromic + Polarised lens:

- Comfort and safety
